

## **Wildlife Committee Information**

**As many of you know, our duck situation has been an area of discussion within the community. We want you to be well informed, to ask questions, and be able to voice your opinion. Earlier this year, the Board of Directors formed a Wildlife Committee to do more research on this issue. The Wildlife Committee has provided a presentation with all of their research that is available for viewing on [www.grandlakeslife.com](http://www.grandlakeslife.com). Please go to the Document Library section on the website for viewing. If you do not have access to the internet, you may contact Frank Gonzalez at [fgonzalez@pmghouston.com](mailto:fgonzalez@pmghouston.com) to obtain a physical copy.**

**At the next regularly scheduled board meeting on Monday, May 23<sup>rd</sup> at 5:30pm at the Seven Meadows Clubhouse located at 23610 Seven Meadows Parkway, the Wildlife Committee will present their report during the open session. Member comments can be made after the presentation. Due to time constraints and in respect for everyone's schedules, comments will be limited to 2 minutes per member.**

**If a member is unable to attend the board meeting or would like to comment on the presentation, an email can be sent with the subject line of "GLCA Wildlife – Comments" to Frank Gonzalez at [fgonzalez@pmghouston.com](mailto:fgonzalez@pmghouston.com) up until the next meeting.**
